### EXAMINER'S AMENDMENT

1: An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the claims:

Claim 6, line 3, before " third voltage state", replace "a" with –the--.

Claim 19, line 3, replace "flow" with –flows--.

2. The following is an examiner's statement of reasons for allowance:

Claims 1-30 recite a memory cell, a method for controlling a memory cell and a memory system. The memory cell, the method and the system comprise a memory cell comprising a transistor having a floating channel body; and a node to connect a drain of the transistor to a word line, the channel having a potential which is determined based on a voltage state of the word line.

The prior art fails to teach or suggest at least the above features recited in independent claims 1, 8, 18, 26 and 29. Therefore, the application is in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
